Academy
Participants

Participant Spotlight

Adam V. has a new outlook on life. And his father, Biagio, credits the Trailblazer Academy for his son's transformation. Adam is discovering his purpose, building his confidence and enjoying his independence because of STARability's centerpiece program, Biagio says. Two years ago, it was difficult for Adam to engage with others, much less try new activities like yoga and dance. Now, he can't wait for his classes and to venture into the community with fellow Trailblazers. "It was like a light opened, a window opened in his life," Biagio says. "I can't be happier."

52 more people want to become Trailblazers like Adam, but STARability needs more space and resources to welcome them. Learn how to become a STAR supporter at STARability.org.

FY2021 IMPACTability Snapshot

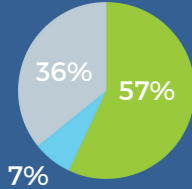

End of Year Measures

July 2020 - June 2021
